LIVE A REFINED LIFE

100% eco-friendly water-based ink wallpaper uses eco-friendly raw material and meets highest standard of quality and eco-friendliness.

## ***GREEN TECHNOLOGY***

Our PVC coated embossed wallpapers represent a perfect blend of elegance and eco-friendliness.

The paper used in these wallpapers is sourced responsibly from renewable forest resources, ensuring sustainability and environmental stewardship.

At Home Fashion, we are committed to reducing our ecological footprint, which is why we use water-based inks for printing. These inks are not only safer for the environment but also contribute to healthier indoor air quality by minimizing harmful emissions.

Additionally, our wallpapers exhibit very low emission levels of volatile organic compounds (VOCs), making them an excellent choice for healthy building materials.

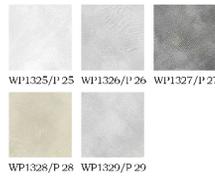

This ensures that your interior spaces are not only stylish but also conducive to well-being and environmental responsibility.
